

KOVA — Grant Impact Narrative (Template)

Applicant: [COMPANY LEGAL NAME] · [GRANT PROGRAM NAME] · [DATE]

1. Organisation summary

[COMPANY LEGAL NAME] operates **KOVA** (Kova Agent), a Business Intelligence Operating System that helps African MSMEs grow revenue through AI-powered social media, lead capture, and email marketing — from **KES 499/month** with **M-Pesa** payments.

Field	Detail
Country	[JURISDICTION: Kenya]
Registration	[COMPANY REGISTRATION NUMBER — pending/planned]
Founders	[FOUNDER 1 NAME], [FOUNDER 2 NAME]
Stage	Production platform; seed fundraising in parallel

2. Problem statement

African MSMEs depend on social media for customer discovery but lack time, skills, and affordable tools. Fewer than **8%** maintain consistent presence. Hiring marketing support costs **KES 30,000+/month** — prohibitive for micro-enterprises.

3. Theory of change

INPUTS	ACTIVITIES	OUTPUTS	OUTCOMES
Grant + seed capital	→ Onboard SMEs via	→ SMEs post consistently	→ Increased revenue
Team + partners	pilots & partners	Leads captured via KOVA	Jobs created
Platform (built)	Training & support	Partner commissions paid	Digital marketing skills

Assumption: Autonomous AI + conversion tools reduce marketing labour burden → more consistent customer acquisition → measurable revenue uplift for participating SMEs.

4. Target beneficiaries

Group	Description	# Target (grant period)
Primary	Kenyan MSMEs (food, retail, services, campus commerce)	[NUMBER]

Secondary	Growth Partners (referrers earning commission)	[NUMBER]
