Western tools schedule posts. KOVA runs the full loop: research → create → publish → engage → capture → nurture → learn.

The pain

- 3–5 hours/day for effective social — owners don't have it
- Agencies: KES 30,000–50,000/month
- 4–6 fragmented tools (content, analytics, leads, email)
- Followers rarely become leads without a conversion engine

KOVA answers

- 6 agents + daily brief — approve in minutes
- Plans from **KES 499/mo** (Plan v2)
- One BIOS: Snap, Studio, publish, REACH, Email
- WhatsApp Business, M-Pesa, link-in-bio built in

Intelligence loop

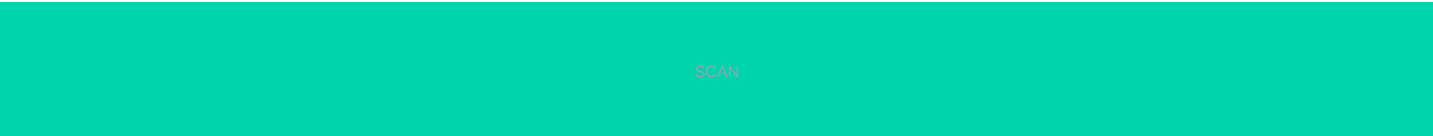

Idea (3 min) → Create (per platform) → Adapt (best time) → Publish → Smart CTAs → Kova Links → Leads → Email nurture → Analyst learns → repeat.
