

Three pillars: WhatsApp · REACH · Email

Social brings attention. These three modules turn attention into conversations, leads, and repeat sales — inside one KOVA workspace.

WhatsApp

Business inbox where Kenya already sells.

- AI replies in your brand voice
- Templates, broadcasts, sequences
- Status Studio & analytics
- Morning brief (Pro+)

REACH

Leads CRM + link-in-bio conversion.

- Pipeline: New → Converted
- Kova Links & capture forms
- Walk-in QR · nurture automations
- Lead scoring & analytics

Email

Nurture subscribers without Mailchimp.

- Lists, campaigns, sequences
- Open & click tracking
- Auto-sync from REACH leads
- Drip flows tied to pipeline

How they work together

Post with Smart CTA → visitor hits **Kova Link** → form capture in **REACH** → welcome **Email** sequence → WhatsApp follow-up for hot leads (Pro).

One sidebar, one login

Customers → WhatsApp / Email / Reach. No exporting CSVs between five SaaS tools.

Plan-aware caps

Hard limits at 100% — no surprise bills. Upgrade when you outgrow Starter.

"Full WhatsApp workspace (inbox, templates, broadcasts) requires Pro (Biashara) — KES 2,999/mo. Growth includes 50 marketing conversations/mo metadata."

Feature	Starter	Growth	Pro	Agency
WhatsApp Business module	No	No	Yes	Yes
WA marketing convos / mo	0	50*	300	1,000
Max leads	10 (view)	100	5,000	10,000
Kova Link pages	1	3	10	Scale
Lead capture on links	No	Yes	Yes	Yes
Email subscribers	50	2,500	25,000	100K
Email campaigns / mo	2	10	30	50
REACH nurture sequences	0	3	10	20

*Growth: utility/auth templates don't count toward marketing cap; full inbox on Pro+.

Quick wins by tier

- **Starter:** 1 Kova Link, 50 subscribers, 2 email campaigns — test conversion
- **Growth:** Edit leads, 3 links, 3 nurture automations — serious SME
- **Pro:** Full WhatsApp + 5 team seats + 25K subscribers

Connect WhatsApp on Pro

Control → Platforms → WhatsApp Business. Brand profile powers AI replies.
